

COLLEGE OF CRIMINOLOGY (CRIM)

The College is an academic unit that provides educational programs relevant to criminal justice. This is where the program for **Bachelor of Science in Criminology (BSCRIM)** is being offered. The program mentioned was formerly under the College of Business and Technology and was thereafter proposed as separate college. For now, it just offer only one program but soon will later on offer more courses relevant to Criminal Justice field.

CURRICULAR STRATEGY

- The College of Criminology demands that all of its faculty members be actively involved in criminology research in their various fields of expertise. This is done so that the faculty members may provide students with expanded learning opportunities through the integration of theory and practice.
- Students are given intense exposure to apprenticeship work assignments and are obliged to perform practical research with public and private institutions involved in the administration of peace and order. In this context, the word "apprentice" refers to the work that students do. Because of this, they are able to create professional networks and employment contacts, which will be quite helpful once they have completed their degree.
